Answer

MINISTER OF STATE IN THE MINISTRY OF RURAL DEVELOPMENT(SHRI A. NARENDRA)

(a) to (d) With a view to institutionalise community participation in the rural drinking water supply sector, Government of India had launched the Sector Reform Project (SRPs) in 1999 wherein pilot projects were commenced in 67 districts of 26 States by June 2002. The project implementation period was for three years and, after the scaling up of reforms to cover the entire country through Swajaldhara in December 2002, the Sector Reform Pilot Projects have been integrated with Swajaldhara from the current financial year. Since these were demand- driven projects, no target of coverage as such was fixed for either the Ninth Plan or the Tenth Plan period. Up to 20 per cent of the Budget provision for rural water supply programme of Government of India is earmarked for Swajaldhara projects. Under Swajaldhara, Government of India makes State-wise allocation of funds as per the inter-State Accelerated Rural Water Supply Programme (ARWSP) allocation ratio fixed for the year and the State Governments, in turn, make district-wise allocations.

The State-wise list of names of districts taken up under Sector Reform Project, financial assistance provided and number of water supply schemes taken up and completed so far, including Karnataka is enclosed at Annexure-I while details of funds allocated and released to States/Union Territories under Swajaldhara 2002-03, 2003-04 and 2004-05 is at Annexure-II.
